I am a penetration tester currently focussing on infrastructure and network security. Currently working towards my OSCP certification, I aim to take the exam in February/March.

With a solid background in computer programming, and am keen to develop that skill and explore webapp-based security further.

- 3/2023 – Present **Penetration Tester** **Ankura Consulting**
Working in Ankura's cyber department has exposed me to a wide array of different projects and scenarios. It has given me the opportunity to become a well rounded security expert with experience in many areas including penetration testing, code review, digital forensics and advisory.
Pentesting / DFIR / Advisory
- 6/2020 – 11/2022 **IT & Network Infrastructure support** **UWL IT Support.**
part time
Worked in the IT department of my university while studying for my degree. This position required a large amount of lateral thinking and in-depth knowledge of windows and various internal systems. This role also required the ability to work under pressure and communicate these technical problems and solutions clearly and calmly to non technical clients.
Windows / Linux / Communication / Networking
- 3/2019 – 1/2020 **Network Engineering & Support** **Timeless IMS**
Timeless is an MSP supporting various local SMBs across a range of sectors. This role involved many site visits and client interactions in order to plan, install and support infrastructure. This ranged from server upgrades to the installation of new networks and security systems.
Networking / Communication / Windows

2020 – 2023

Cyber Security B.Sc. - First Class	University of West London
Studied at UWL's - at the time - new cyber security course covering a wide range of topics including but not limited to: programming, mobile security, webapp development, penetration testing and AI. As well as teaching me many topics, I also had the time to explore topics further.	
I also founded the rock climbing society and taught many students how to rock climb as well as leading several trips both abroad and within the UK. This society is still going today, I am very glad to have had a chance to make a lasting contribution to the university.	

English - native
Bulgarian - fluent

I am an avid rock climber and musician. I currently produce music in my own time and play guitar in a band that has performed gigs Across the UK and had songs played on BBC radio.

OSCP - Exam to be taken Q1 2025
